

Sandesh Thakare

SAP ABAP Consultant

S

Profile

As an experienced SAP ABAP Consultant with experience of 7 years, I have a proven track record of successfully designing, developing, and implementing ABAP programmers and enhancements to meet the unique business requirements of various clients. I have a deep understanding of the ABAP programming language, including Object-Oriented Programming (OOP) concepts, ABAP on HANA, 7.4 New Syntaxes, and I am proficient in SAP development tools such as ABAP Workbench, ADT Eclipse, and others.

During my tenure as ABAP Consultant, I collaborated closely with cross-functional teams to gather requirements and translate them into robust ABAP solutions. I have a strong knowledge of SAP modules, including but not limited to, Financial Accounting (FI), Sales and Distribution (SD), Materials Management (MM), and Warehouse Management (WM). This broad understanding of SAP functionalities enables me to deliver comprehensive and efficient solutions that align with business objectives.

Also has worked on BTP and Cloud development into SAP, creating application on CAPM and RAP and having hands on experience on BAS.
